THE DESIGN CURE

August/September 2010~Newsletter

Design from the inside out...

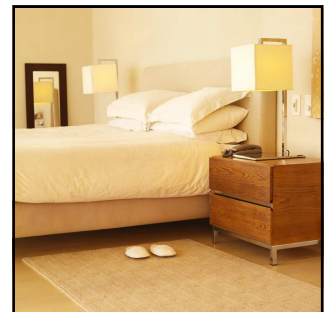

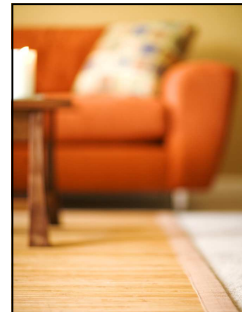

In anticipation of cooler weather, once again, our designers are beginning to design spaces and exploring ideas and options for creating an extension of your home...a simply dynamic outdoor living space, cool and chic for those fall nights by the fire.. Beautiful outdoor fabrics, rugs and accessories are a great way to relax in a casually elegant space with the outdoors as your backdrop serving as truly one of a kind art.

If you don't have the luxury of an outdoor space to create a luxury get-a-way... Infuse natural elements to your existing spaces to create the sense of warmth and relaxation and contact our designers for more ideas and to assist you in creating a space designed to inspire.

It is our mission to create beautiful and functional living spaces based on your guidelines and priorities, then translate that into simply good design.

Design from the outside in... We have access to multiple vendors with all design esthetics. Please contact us today to begin the design process and be ready for summer entertaining.
